

KEEP CHILDREN SAFE ON YOUR SCHOOL SITE

Trees are like children - neglect can make them troublesome, but the right care and attention turns them into valuable assets for the future.

At Andy Portlock Tree Specialists we know that the children in your care are your first priority.

With 17 years experience dealing with tree issues on publicly accessed sites, our fully qualified and well equipped teams will work to your school's timescale, at your convenience. This will ensure your trees are kept in the safest possible condition – healthy and attractive for everyone to enjoy.

All our team members are NPTC qualified, honest professionals and are CRB checked. We are local authority approved contractors. Dealing with us directly offers a cost effective alternative, allowing your budget to be used elsewhere.

As specialists in trees we prune, fell, crown lift, hedge cut etc. all to BS3998, delivering the best possible results. Public liability insurance cover is £10 million. Risk Assessments and Method Statements available on request.

Contact us now for a no obligation site visit at a time to suit you.
